BETHEL AIRPORT CORP. OFFERS AIRSTRIP TO TOWN

A meeting of the stockholders of the Bethel Airport Corporation was held Friday evening at the Selectmen's office. The meeting was called to act on the report of the committee which was appointed last fall to consider the future of the airport and the airport property.

The committee consisting of Richard Davis, Carroll Abbott and Philip Chadbourne, made the following recommendations, which were adopted:

1. That the Bethel Airport Corporation offer to the town as a gift the present airstrip and all the land between this and the highway; plus a 400' wide strip, but none of the growth now on said strip or which may in the future be on it. This strip running from near the East end of the present airstrip diagonally to the back side of the airport property. This land to be used only as an airport and subject to a 25' right of way along each end of the present airstrip. Said right of way to be used with the minimum nuisance to the Airport.

2. The Airport Corporation offer for sale, by sealed bid, the balance of their property. The proceeds from this sale to pay any debts and the balance to be divided amongst the stockholders who would then dissolve the Corporation.

COMMENTS FROM THE TOWN MANAGER'S OFFICE

Modern methods of snow removal have demanded the use of a one-way plow in preference to the V-type. The one-way works to a better advantage for small storms or even in more severe storms if the plow is started out when there is not over two inches of snow already fallen. V-plows will work to a better advantage on back roads in case of a heavy snowfall or drifting conditions.

This past week a new Frink plow has been purchased to be used in place of the V-plow on the Chevrolet-Coleman truck. The V-plow will be retained for use under severe conditions and as a spare in case of breakdown of one of the other plows. The plow is being paid for out of truck rental account. The funds in this account are earned by the use of the town equipment for snow removal as well as all other highway work.

The books closed on Dec. 31st with all bills paid. The cash balance on hand as of this date is \$31,988.78. There is \$18,086.84 in unpaid taxes. Some of which have already come in and more is anticipated within the next 30 days.

Next week I will be in a position to furnish information on the standing of the more important appropriation accounts.

Work has already started on the town report and several pages have been placed in the hands of our local printer.

Sincerely,
Harold L. Bean

Bethel Firemen Honor Past Chief Robert Blake

Stanley Gallant took Polaroid pictures of the festivities, which will be on display at the fire house. Acting Chief Addison Saunders addressed the group and predicted a year of fun, effort and activity.

EMPLOYERS REMINDED W-2 FORMS MUST BE FURNISHED THIS MONTH

Employers and employees in the Augusta District of the Internal Revenue Service are reminded by District Director Whitney L. Wheeler of the importance of the W-2 withholding certificate in the proper filing of 1957 Federal income tax returns.

Employers, he points out, are obligated by law to furnish copies of this form to their employees by Jan. 31. Employees in turn, must attach the requisite copy of the W-2 to their Form 1040 or 1040-A when filing.

Mr. Wheeler urges employees to prepare their returns as soon as they receive their withholding certificates and to file them as soon as possible thereafter. Larger employers can help by providing their workers with the W-2 form before the deadline date.

Director Wheeler also reminded employees who have worked for more than one concern during 1957, that all of the W-2's they received during the year must be included with the 1957 income tax return.

In case of couples filing jointly, each of whom was employed during the year, care should be taken that all W-2's are attached and any change of jobs indicated. While the April 15 deadline still is in effect, early filing would prove advantageous both to the taxpayers and to the government, Mr. Wheeler indicated.

DR. EASTON TO ADDRESS PTA ON FLUORIDATION

A large attendance is anticipated at the joint meeting of the Bethel Parent-Teachers Association and the Bethel Health and Service Council to be held Tuesday evening, Jan. 14, at 7:30 p. m. in the Crescent Park School.

Several matters of extreme importance will be discussed, and it is hoped that anyone interested will be present—and who shouldn't be?

The featured speaker of the evening will be Dr. Arthur W. Easton of Norway, and his topic will be concerned with the fluoridation of public water supplies. As this will again be an issue at our next town meeting, it is important that as many as possible attend and profit from Dr. Easton's vast experience on the matter. It was through his untiring efforts and leadership that Norway became the first community in Maine to institute fluoridation of their water supply.

Dr. Easton is undoubtedly the most widely known and best respected dentist in Maine. His achievements are too numerous to list in their entirety but among them are Past President of Council on Dental Education of the American Dental Association, and presently he is serving as the first Maine dentist to represent the District as Trustee of the American Dental Association. Although his primary interest lies in the dental field he has always been active in church and civic affairs in Norway and is the president of the Norway National Bank.

The P. T. A. and the Health and Service Council strongly urge each family of the community to be well represented at this first meeting of 1958 for both organizations. Their success throughout the remainder of the year depends on YOU.

Refreshments will be served following the meeting.

MAINE POTATO WEEK PLANNED FEB. 9-15

Also cooperating in the campaign will be Maine grocery stores, restaurants, and hotels who will offer special displays and dishes of this most famous of all vegetables from the Pine Tree State.

Gerald C. Dunn, marketing specialist, Maine Department of Agriculture, is in charge of coordinating the state-wide campaign.

The fifty-seven million dollar Maine potato industry is currently boasting of apids of the best size and quality in many years.

CAROLINE TAKEN IN 5 DAYS

By Jan. 8, the taxes on gasoline paid by Maine highway users reached the sum of \$882,000—as much as was once collected in gas tax revenues in Maine in a whole year.

This was pointed out by Leroy T. Snowdon, Executive Secretary of the Maine Petroleum Association, in commenting on present estimates that Maine's 7-cent state gasoline tax will take in \$21.6 million during 1958, while the 2-cent federal tax will swell the total tax cost to motorists in this state to a predicted \$30.7 million.

This, he noted, means that Maine highway users are now pouring gas tax revenues into the state and federal tax coffers at the rate of \$1 million every 14 days, or as much in eight days as Maine's original 1-cent gas tax brought in during a whole year following its enactment in 1923. The federal tax was not added until 1932.

"This 58-fold increase in annual gas tax revenues can be explained partly by the fact that there are now 3.1 times as many motor ve-

GOULD ACADEMY

hicles in Maine as there were in 1923, but it must also be noted that the present combined tax rate is now 10 times as high," Snowdon said. He added:

"An interesting thing about gasoline is that this is one product on which the price today, excluding taxes, is actually lower than it was back in the 20's." He noted that in 1920 the average price of regular gasoline was 32.7 cents a gallon. Today motorists are getting a far better quality of gasoline for less, but taxes now add 50 percent to the cost.

holiday schedule.

The Gould team will be entertained with a dinner before the game and will be guests for the night of the Old Orchard club. It is one trip Gould looks forward to and one which the Beach team also enjoys in alternate years.

On Tuesday the Huskies will again travel, this time to meet the Porter High team of Kezar Falls. The Porter High team won over Gould last year and the Huskies will be trying to even the count.

The Gould J.V.'s will be idle until Jan. 17 when both clubs will travel to Farmington to meet the Greyhounds.

BEER FOR CHILDREN

(From Civic League Record)
 Proof that the Brewing Industry in Maine has sunk to a new low may be seen on the front page of this Record. They now provide beer for children. It is sometimes referred to as "Beer-Beer."

Maine Law says that "Liquor... fermented or other alcoholic beverage... intended for human consumption, which contains more than 1 per cent of alcohol by volume."

This so-called "Beer-Beer" has an alcohol content of a little under 1 per cent. It contains enough "beverage alcohol" to have its effect on children.

This is being sold in Maine. Any child who can buy a loaf of bread or a yeast cake can buy this beverage. Many places are making it in the cookers with the other "soda." It is another "imitation" of the Breweries to get money from children, regardless of the impression they make, and regardless of the fact they may be setting them up to join the army of alcoholics we already have in Maine.

This is real beer, regardless of the label... from real breweries... with the small, taste, appearance, and when poured out, it carries the same soda on the top.

It is evidently not the intention to get any child "drunk" but rather to set them up psychologically, and to create an appetite, to be ready victims for the product when they reach the age.

The Maine Legislature was asked in 1957 to ban the sale of this product. This, the Liquor Lobby at Augusta, was able to persuade the legislature, was not advisable. They argued that it was not being sold in Maine. The Liquor Lobby, which has proven itself to be the most powerful at Augusta, was able to defeat the bill.

It is understood that an attempt will be made to introduce the measure again at the special session beginning January 15, 1958. If this is so, will you contact your Legislator to support the measure? The liquor interests may be powerful enough with the legislature to defeat it. It is an emergency measure.

How low can an industry crawl? Making such a play for children seems they have reached the depths. Making this alcoholic product on sale along with the ordinary soft drinks, which children use makes the industry even more obvious.

Please contact your Legislator about this serious matter.

MAN'S RECIPE

BLANCHES OVEN-FRIED CHICKEN

I am a childless son, 55 years old, and generally blessed with these things. These good things, they are all younger than I. It would be an impossible situation to be a childless son and have three children. The children are all very able and articulate women and they can't get over the fact that I am learning to cook.

I don't pretend to judge myself and I am sure that whatever faults of initiative and persistence I have today are due to my beloved sisters. Any boy who can get at the cook's par with reasonable frequency to spite of three well-served waitresses is bound to develop certain qualities that will help one along life's road.

Here is our favorite method with chicken. Use a two and a half to three pounder, cut into serving pieces. Wash and wipe the pieces. Season them with salt and pepper and leave it at room temperature until it will spread easily spread on the skin side of the pieces.

Put a paper bag cut three table-spoons deep, one half teaspoon salt and a dash of other pepper or paprika. Shake the chicken to mix it. Now add the chicken one or two pieces at a time and shake until each chicken piece is evenly coated.

Place the chicken in a shallow dish or baking pan. Put in chicken, salt and pepper. Bake at 350° and three or four about 45 minutes. If you are cooked off the pan, do not overcook. Chicken should be browned to 350° or 375° the last few minutes. I don't like to eat but this is food chicken the way I like it.
